

2022-09-15 TSC Minutes

TSC Meeting [Zoom](#) || [TSC APAC Zoom](#) || [Meeting Recordings](#)

TSC meetings are held weekly for one hour on Thursdays. Meeting time alternates each week. Standard: 9am Pacific and APAC: 10pm Pacific.

Attendees & Representation

TSC Members and Project representatives should mark their attendance below

X = Present | P = Proxy (Indicate below table with @name for @name)

TSC Members	
Robert Varga Pantheon.tech	
Manoj Chokka Verizon	
Venkatrangan Rakuten Symphony	
Guillaume Lambert Orange	x
Anil Belur Linux Foundation	x
Ivan Hrasko Pantheon.tech	x
Cedric Ollivier Orange	x
Community Elected Roles:	
Daniel De La Rosa (Release Manager)	

Staff:

Community: @Jan Medved

Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrave at the firm Gesmer Updegrave LLP, which provides legal counsel to the LF.
 - [Antitrust Policy](#)
- Agenda Bashing, Roll Call, Action Items (all, **9:00-9:05 am**)
- [Releases](#)
- LFN Updates
- Marketing Update
- [TSC Grievance Tracking](#)
- General Topics
 - ODL 2023 Budget
 - <https://lists.opendaylight.org/g/TSC-Private/message/609>
- Any Other Topics

Minutes

Release

[Daniel De La Rosa](#) not present- sttus sent bye email: RC for both sulfur SR2 and chlorine were still blocked by the issues with AR integration tests

[Guillaume Lambert](#) status on TransportPCE : Sulfur RC2 ready for 2 weeks has been updated with latest change on master

Master branch bumped to Chlorine this week - all tests passed but some had to be adapted because of some Decimal64 side-effects.

The last step before integrated the managed release is to move ORDМ,T-API and openconfig YANG models to a specific created repo.

Sulfur SR2

odltools is outdated with the version requirements, not developed or used. Therefore the suggestion was to remove the odltools

LFN Updates

Marketing Update

General Topic

- No objections were raised with the Budget from the members present in the TSC meet.
- Infra and JJB issues
 - If-activate-vevn() issues affecting the release process. Most issues with If-activate-vevn() and migrating to pyenv has been resolved with **global-jjb release v0.81.2**
 - [Cedric Ollivier](#) architecture JJB must be discussed - slides prepared for Anuket <http://testresults.opnfv.org/functest/releng.html>
We need to have a better approach to upgrade and maintain systems and upper constraints.
Architectures must be rethought but we can already address some quickwin bugs before.
[Guillaume Lambert](#) Ongoing discussion by email with [Anil Belur](#) and [Luis Gomez](#)
The pipelines meeting could have been a good place but the tight-coupling with other LFN projects make the topic broader.
[Anil Belur](#) [Cedric Ollivier](#) [Guillaume Lambert](#) agree that is possible to contribute to LFN global-jjb but current architecture and tight-coupling issues make difficult for contributors to test and forecast side-effects.

Action Items
