Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrave at the firm Gesmer Updegrave LLP, which provides legal counsel to the LF.
 - [Antitrust Policy](#)

Release

- Phosphorus SR2 is all done and [Luis Gomez](#) will release the official distribution 24 Feb 2022 and we will update the documentation
- Sulfur GA, MRI changes are still in progress, [Robert Varga](#) is working on several challenging changes

TAC & SPC Update

- Comments

Marketing Update

- [Open Networking & Edge Executive Forum](#) is scheduled from April 12th to 14th and free of charge
 - 2021 YouTube Playlist <https://www.youtube.com/playlist?list=PLbzoR-pLrL6pHzi3ZxE5yHzugP3pk1mmA>

General Topic

- LFX Security Dashboard configuration: most projects scanned are obsolete needs to investigate

Board update

- Sulfur is on target to release in March 2022.
- Community development goals are behind schedule due to a drop in upstream code contributors and hampered by technical debt. However, technical debt is being mostly eliminated with the Sulfur release.
- There remains a focus on attracting new developers, marketing outreach, recruiting new community release managers, and Integration/testing leads that would greatly benefit the community in maintaining some areas of the Project. Support from downstream consumers of ODL is needed.
