Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrove at the firm Gesmer Updegrove LLP, which provides legal counsel to the LF.
  - Antitrust Policy
- Agenda Bashing, Roll Call, Action Items (all, **9:00-9:05 am**)
- Releases
- TAC & SPC Updates
- Marketing Update
- TSC Grievance Tracking
- General Topics
  - TSC Modernization discussion
- Any Other Topics

Release

- Sulfur release is still in progress, but Robert Varga is working on it as described in his last post

TAC & SPC Update

- Comments

Marketing Update

-

General Topic

- **Modernization**
  - ODL in the cloud
    - Luis Gomez believes that there is a need to pursue a position to support cloud
    - We could identify some specific use case to promote

- Tencent said they used a version of ODL but they've made their own version with microservices.
  - https://oneef2022.sched.com/speaker/yachenwang?iframe=no
  - Will soon be posted to the LFN YouTube channel.
- Updating Karaf/OSGI framework
- Luis Gomez If we move towards Kuberneteees, helm charts will make ODL more consumable.
  - Verizon has been contributing helm charts
- Luis Gomez Robot is not working well for us, but updating it would be a challenge.
  - It was asked if Cedric Ollivier would like to look at our testing and if he would be interested in proposing upgrades.
- Robert Varga we need more engagement from downstreams companies that are not contributing back to ODL - it is a part of the LFN duty

  Casey Cain proposal to advertize a direction and call for contribution through the governing board
