Anil Belur Linux Foundation	
Ivan Hrasko Pantheon.tech	
Cedric Ollivier Orange	x
Community Elected Roles:	
Daniel De La Rosa (Release Manager)	

Staff: Kenny Paul

Community: Sangwook Ha

Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrove at the firm Gesmer Updegrove LLP, which provides legal counsel to the LF.
    - Antitrust Policy
- Agenda Bashing, Roll Call, Action Items (all, **9:00-9:05 am**)
- Releases
- LFN Updates
- Marketing Update
- TSC Grievance Tracking
- General Topics
    -
- Any Other Topics

Minutes

Release

- Chlorine is almost done. TPCE released some artifacts candidates that needs to be confirmed by int/dist team, so we can move forward towards distribution and documentations updates
- Sulfur SR3 RC is not ready to be picked, so we will wait until next week to get it done.

LFN Updates

- ONE summit is coming up, followed by the D&TF at the same location during 2 days. Colocated event with SONiC, nephio, https://events.linuxfoundation.org/one-summit-north-america/
The D&TF team will try to propose some slots with a new formula with more interactive sessions.

Marketing Update

General Topic

- Ongoing discussion at the ONAP TSC about the EPL license of the ODL fork (exception to ONAP ALv2 license recommendation).
  There are ONAP components in lack of maintainers and they rely on the old RESTCONF implementation.
  They try to adapt the old RESTCONF code deleted in Chlorine inside their own repo, the time they migrate.
  A new project was created to that purpose. Discussion on possible scenarii with Cedric Ollivier and Robert Varga
  Creating a broker to manage the 2 RESTCONF versions was too hard indeed.

Action Items

- ☐
