

2023-03-16 TSC Minutes

TSC Meeting [Zoom](#) || TSC APAC [Zoom](#) || [Meeting Recordings](#)

TSC meetings are held weekly for one hour on Thursdays. Meeting time alternates each week. Standard: 9am Pacific and APAC: 10pm Pacific.

Attendees & Representation

TSC Members and Project representatives should mark their attendance below

X = Present | P = Proxy (Indicate below table with @name for @name)

TSC Members	
Robert Varga Pantheon.tech	
Manoj Chokka Verizon	
Venkatrangan Govindarajan Rakuten Symphony	x
Guillaume Lambert Orange	x
Anil Belur Linux Foundation	x
Ivan Hrasko Pantheon.tech	
Cedric Ollivier Orange	x
Community Elected Roles:	
Daniel De La Rosa (Release Manager)	x

Staff: [Casey Cain](#)

Community: [Sangwook Ha](#)

Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrove at the firm Gesmer Updegrove LLP, which provides legal counsel to the LF.
 - [Antitrust Policy](#)
- Agenda Bashing, Roll Call, Action Items (all, **9:00-9:05 am**)
- [Releases](#)
- LFN Updates
- Marketing Update
- [TSC Grievance Tracking](#)
- General Topics
 -
- Any Other Topics

Minutes

Release

- Argon is scheduled for 16 Mar 2023 but
 - TransportPCE is done after this <https://git.opendaylight.org/gerrit/c/integration/distribution/+104761> was merged.
 - [Anil Belur](#) LFTools reuse openstack libs to create stack and racks space etc. It is an old version of LF tools. very indirect dep for LF tools.
An error with no attribute mapping message. Apparently due to the new python version 3.10.x
[Daniel De La Rosa](#) With the latest jobs, its picking up python 3.10.x and
<https://jenkins.opendaylight.org/releng/job/bgpcep-csit-1/node-bgp-ingest-mixed-all-argon/168/console>
and returning an error. 06:34:27 AttributeError: module 'collections' has no attribute 'Mapping'
[Cedric Ollivier](#) confirmed that python3.10 introduce this kind of issue (e.g. nose to pytest migration). Seen also in Anuket.
The root cause is the upper constraint management. You should stick to OpenStack upper constraint management. (cf [D&TF presentation](#))
 - Once this is resolved and integration tests passed, we can move forward with Argon release, hopefully early next week.
 - [Cedric Ollivier](#) we need a discussion about the global design.
There was a proposal in previous TSC minutes to set up a global discussion with the LFN staff and other communities. It will be a deep

technical discussion.

[Casey Cain](#) is OK to set it up. The TAC is the right place but the TAC meeting is not the convenient moment. We probably need to create a sub committee

- Sulfur and Java 11 is EOS, as you can see from [Robert Varga announcement](#)

LFN Updates

Marketing Update

General Topic

- [Venkatrangan Govindarajan](#) forwarded some concerns about HTTP cookies potential reuse (apache shiro) to the security mailing-list - under investigations / discussion

Action Items
