 - [LFN Technical White Paper - Brief ODL Overview](#) - action please review
 - [OpenDaylight Update to LFN TAC from Dec 19, 2019](#) - FYI
 - Overall state of our community
- Releases (25 min)
 - Sodium SR 2
 - Magnesium
- Any Other Topics (5 min)

Minutes

DDF Survey Results

- Survey results indicate a small majority prefer to join the 4 day LFN developer event - so we will go with that.
 - We will also try to put up a small event also at the ONES.

Mailing list Mapping

- The vote for mailing list migration has passed

Project Pages on Confluence & Transition from Mediawiki

- [Abhijit Kumbhare](#) has created empty project pages for all the projects at [Confluence ODL Projects Home Page](#).
 - Currently each of these pages is pointing to the current project page on the mediawiki.
 - Example: <https://wiki.lfnetworking.org/display/ODL/Genius> has a pointer to the <https://wiki.opendaylight.org/view/Genius:Main>
- The migration has to be done manually via copy-paste.
- [Casey Cain](#) indicates that the copy paste is easy even though it may take a bit of time.
 - You will need to update the links and have some other edits.

LFN Technical Whitepaper

- [Abhijit Kumbhare](#) asks the community to review and provide feedback on the [LFN Technical Whitepaper](#)

OpenDaylight Update to the LFN TAC

- FYI: [OpenDaylight Update to LFN TAC from Dec 19, 2019](#) .

Releases

- Sodium SR2 RC was picked (#326) but due to this controller blocker issue [CONTROLLER-1928](#) was have to delay this release. Waiting on [Robert Varga](#) and controller to give us an estimate on this fix
- Magnesium code freeze will have to be delayed as well, but we will decide on the specific once we get a clearer idea on Sodium SR2
- Reducing the number of SR will be pushed for Aluminum and not Magnesium. Proposal for Aluminum release schedule will be sent soon

Action Items

- ☐ [Abhijit Kumbhare](#) to create a poll for migration mediawiki for the projects.
- ☒ Daniel De La Rosato send a Magnesium release schedule proposal with two SR
