2020-06-24 Integration Meeting Minutes

Date & Time

June, 24th, 2020; 9pm PST

Agenda

- Release
- Infra
- Docs
- Misc

Minutes

Release:

- **sodium SR release checklist ready and vote to approve that SR4 release is here**
  - **planned to release 8/27**
- **Aluminium planned to release 9/17**
  - **still a few problems to debug in the following CSIT jobs**
    - **controller (seems car/people job has new string format)**
    - **bgpcep has real issues**
    - **2 regressions in netconf**
    - **OFP has a bug to report**
    - **no idea about lisp**
    - **genius and ovsdb might have python3 troubles**
    - **netvirt has some real blockers**
- **Magnesium has nothing major going on, but will release between Sodium SR4 and Aluminium**

Infra:

- **info.yaml jobs are coming online now which allow us to self promotion (allowing us to add/remove committers via gerrit patch)**
- **Vexxhost was broken this week, but resolved rather quickly by opening a ticket and pinging mnaser on IRC**
- **Netvirt job count has increased from ~400 to ~500, but we are hoping the frequency will be reduced.**
  - **Srinivas Rachakonda has further reduced the job count by only using two openstack versions as opposed to the previous 3. (confirmed to be under 400 now for all of netvirt, 314 for CSIT)**
    - **quick cmdline to get job count: "**jenkins-jobs -s odl-sandbox list -r -p jjb/ 'netvirt-*' | wc -l"
- **looks like we are not getting our automated job patch from jenkins-releng user**

Docs:

- **no news for now**

Misc:

Action Items

Jamo Luhrsen to look in to why automatic job creation patch not being generated
