

ODL Micro Status & Next Steps

Date

23 Jun 2020

Attendees

- [Tejas Nevrekar](#)
- Ravi Sankar (Lumina)
- [Abhijit Kumbhare](#)
- Daya
- [Thanh Ha \(zxiro\)](#)
- [Luis Gomez](#)
- Jeff Hartley
- [Dan Timoney](#)
- [Daniel De La Rosa](#)
- [Venkatrangan Govindarajan](#)
- [Nikhil Soni](#)

Overview

We review the requirements that arise from moving ODL applications to a scale-out model in a pure micro-service approach and how we can achieve that in a staged manner.

- Schedule: <https://teamup.com/event/show/id/diJtFSeKcP77hJ3JnTzdayAogzqeV>
- Recording: [ODL Micro Status & Next Steps.mp4](#)

Minutes

- Slide Deck here - <https://docs.google.com/presentation/d/1hqN9cFzmzkafCPgcEx7wZFB-rPaWHvKOBItcEINUYwk/edit?usp=sharing>
- Need performance tests that show the improvement by ODL-Micro v/s OSGi/karaf
- Need performance data about how much percent improvement ODL-Micro gives when testing with a device

Action items

- ☐ [Tejas Nevrekar](#) to share performance reports once available. Further elaboration in TWS once code is uploaded
