 - Does the TSC approve the supercommitters to merge this changes?

Minutes

Releases

- Magnesium SR2 is done.. [checklist link](#)..
- Sodium SR4 in progress.. [checklist link](#) and [spreadsheet](#)... CSIT failures are still being reviewed by [Jamo Luhrsen](#) and [Luis Gomez](#) Not sure that we will be able to release this week because of INFRA issues... [LF IT ticket](#)
- Aluminum in progress.. [checklist link](#).. still a lot of [open patches](#) though, with most in netvirt so we need to look at CSIT issues to make sure no more regressions or blockers there.. [Karthikeyan Krishnan](#) is working on patches but not urgent, it can wait for Aluminum SR1... In general, there are 4 blockers
 -  [NETCONF-716](#) - regression in netconf-scale CSIT between Mg Sr1 and Sr2 VERIFIED
 -  [BGPCEP-919](#) - exceptions and failures in CSIT IN REVIEW
 -  [INTTEST-400](#) - cluster_rest_script.py is aborting RESOLVED
 -  [INTTEST-449](#) - controller's move to MRI breaks netconf clustering CSIT VERIFIED
- Silicon Schedule... [proposed schedule](#).. TSC please vote [Silicon schedule approval](#)

LFN Virtual Technical Meeting

- [Casey Cain](#) talked about the upcoming Technical Meetings in October. There was a general consensus to hold some discussion about engagement and project introductions.

Genius Committer Approval Vote:

- Genius has proposed Chetan Arakere Gowdru to be the committer for the project
- The TSC vote for this is here: <https://wiki.opendaylight.org/x/MxEF>. TSC members should vote over there.
 - The TSC vote has passed - please see the link.
 - Chetan is now a committer on the Genius project - congrats.

Action Items

- ☑ Casey Cain to develop election mechanics language for the TAC and SPC representatives of ODL and present it to the TSC at the next meeting.
