Staff: [Casey Cain](#)

Others: [Thanh Ha \(zxiiro\)](#) [daya kamath](#) [Manoj Chokka](#)

## Agenda

- Start the Recording
- Show the [Antitrust Policy](#)
- Agenda Bashing, Roll Call, Action Items (all, **9:00-9:05 am**)
- [Releases](#)
  - Aluminum
  - Silicon Schedule
- [TSC Grievance Tracking](#)
- General Topics
  - Community survey
  - Knowledge sessions from ex-Lumina members
- Any Other Topics

## Minutes

### Releases

- Sodium [SR4 Checklist](#)... Waiting for SM projects
- Aluminium... List of blockers after these are resolved, we can pick up RC... according to Aluminium [Checklist](#)
  -  [BGPCEP-919](#) - exceptions and failures in CSIT IN REVIEW
  -  [BGPCEP-906](#) - Propagate only negotiated afi/safi routes to adj-rib-out RESOLVED
  -  [NETCONF-746](#) - regression in netconf-scale CSIT between Mg Sr1 and Sr2 VERIFIED
  -  [INTTEST-449](#) - controller's move to MRI breaks netconf clustering CSIT VERIFIED
  -  [INTTEST-400](#) - cluster\_rest\_script.py is aborting RESOLVED
- Silicon [Schedule](#)
  - Was approved on 13 Aug 2020 (before Lumina news - may need to revisit)

### Community Survey

- We were discussing a need for an ODL survey - turns out there was already a survey planned in the end user group
- Guest - Ahmed Sawaf talks about the survey - priorities and use cases what operators are looking for. They would like to broaden the scope to other cases like data center, etc.
  - Feels will help both operator and vendors.
- ODL Survey Goals

- Need to identify users
- Need to identify use cases and which are being actively used
- How is ODL being consumed
  - Which Projects and which release is being used?
  - Is there a fork of the code that is being maintained? What version is being used?
- [Robert Varga](#) Will operators be willing to have DevOps team contribute to the upstream communities?
  - This should probably be one of the questions.

### Knowledge Sessions

- There is a need to develop some knowledge sessions. There may not be enough time to develop slides and walk through a presentation.
- We can do a screen share walk-through of the project potentially.
- [Luis Gomez](#) willing do a session on the TWS for distribution and we will start a mailing list thread to identify other topics.

### Action Items

- ☑ Casey Cain will start an email thread on the discuss mailing list with Ahmed to develop survey questions for ODL and SDN Controllers
