Agenda

- Start the Recording
- [Antitrust Policy](#)
- Agenda Bashing (Roll Call, Action Items (5 minutes)
- General Topics
 - Niral Networks Introduction

Minutes

Abhijit C introduced the use cases for Niral Networks. Niral has a Network Operating System to manage 5G networks.

[Luis Gomez](#) suggested that ODL was a good fit for Niral. He suggested that they take a look at the [Plastic \(Remove\)](#) and [SAF](#) projects in addition to BGPPEP and other core components to ODL.

Niral is now working on the Controller and their 1st priority is to get the device discovery and configuration. Initial contributions will be on Netconf.
