Introduction

NeXt provides a network centric topology UI component featuring high performance and rich functionality. NeXt can display large complex network topologies, aggregated network nodes, traffic/path/tunnel/group visualizations and it includes different layout algorithms, map overlays, and preset user friendly interactions. NeXt can work together with DLUX to build ODL apps.

Current stable version : 0.9.1

Download Package : [0.9.1](#)

Developing version 0.10 (1.0)
